A LETTER FROM YOUR JUNIOR COORDINATOR

2025 will be another big year for our Juniors within The Carnmoney Golf Club community.

Last year, we continued our success with attendance in all our junior events and instructional programs throughout the year. We are planning to build upon that for the 2025 season. Golf is continuing to grow, and within our Club, we are excited to grow the game - starting with our juniors. We strive to provide our Junior Golfers with a welcoming, inclusive, and fun environment. We want the kids to be excited to come to the Club and share their passion for golf with their family and friends. Our Club has made wonderful strides to improve our services and access over the years. This year, we have a vast number of offerings for all ages and skill levels. We use the Long-Term Player Development Guide (LTPD) to structure our programs. The LTPD is a blueprint for coaches and instructors to maximize a player's potential by providing a pathway for developing athletes of all levels. With the help of other programs such as US Kids Golf, Operation 36, and Junior TPI, there is sure to be something for everyone. Please visit page 5 to view recommended programs for each age and skill level. We look forward to building upon last year's success and creating an environment of excellence and exceptional experiences for our Juniors and their families while aligning with our core values.

Sincerely,

Jon West

All of our programs have been carefully researched and tested. We are committed to providing the best experience for our Carnmoney Junior members at our club. This season, we will continue to follow the Titleist Performance Institute philosophy, which focuses on developing athletes first. Each group will have a teaching ratio of 8:1, with volunteer helpers. The program will take place every Monday night from May to the end of August, except on holidays.

This program makes golf fun while teaching you how to shoot low scores! All golfers are welcome to join weekly classes on Thursdays, where coaches cover skills from the Operation 36 Curriculum. Participants will play four 9-hole events on Saturdays at 6pm. Progress is tracked through a shared app, aiming to shoot 36 or better from varying yardages. Once you shoot 36 or better you can move to the next yardage.

Team Carnmoney helps junior golfers improve their skills in competition, technique, and scoring. We will cover everything from the golf swing and selecting the right club and shot to building mental strength and managing the golf course. During the program, junior golfers will learn to balance their physical, mental, and social well-being. We will focus on choosing the right competitions and recovery practices. Our main goals are to set achievable objectives, improve conditioning, and enhance performance. These skills are necessary for junior golfers who want to advance in competitive play.
